

I Can Wear a Face Mask!

**A face mask, or covering, can protect me
from germs that can make me feel sick.**

A face mask is something that covers my mouth and nose, but I can still breathe. Kids AND grownups can wear masks to stay healthy.

**Some face masks are
made from a paper-
like material.**

**Some face masks are
made of cloth.**

Some people wear a scarf or a bandana instead of a face mask.

**Face masks or coverings can protect me
from germs that make me feel sick.**

**It might feel funny the first time I wear a
face mask. It might feel funny on my ears or
on my nose.**

**A grown up can help put on my mask, and
make it feel better on my face.**

**I might need to practice wearing this. I can
even have my toys practice!**

**It is important to remember to listen to
grownups about the important rules for
wearing a mask.**

**To keep the germs away, it is important to
try and not touch my face.**

I can also keep my hands clean by washing them. I know how to wash my hands-and a grown up can help me.

**My family will be so proud when I wear my face mask
and keep my hands clean!**

I am staying healthy! Hooray!!
